Are you concerned about what's happening at the Legislature?

Attend an upcoming briefing on a constitutional amendment that would weaken collective bargaining and hurt the middle class.

The same out-of-state corporate CEOs who have taken away union rights in other states now want to weaken workers' rights in Minnesota. They are proposing a constitutional amendment that would tilt the balance even more towards big corporations.

Under current law, no one in Minnesota can be forced to join a union.
This law would make it illegal for all unions to collect fair share fees, unfairly allowing cheaters to benefit at the expense of those who work hard and play by the rules.

It would even weaken collective bargaining for nurses and firefighters - putting our families' safety at risk.

It's unfair, unsafe and unnecessary. Learn more by attending one of the following briefings:
