

How to access your Vacation Fund Dollars

1. Use the card as a pre-paid debit card
2. Get Cash out of the ATM with your PIN
3. Request a reimbursement
This will move the money into the bank account that you set up.
 - Set up Direct Deposit
 - Keep in mind any banking information for other accounts will not automatically be carried over to the Vacation Fund.
 - Request your Funds by submitting a “claim” online or on the app
 - You can do this every time the vacation funds are loaded to the card or do one big “claim” for \$500,000 – this will continue to push your funds to your bank account every time the money loads to the card.
